

# Alfred Verhoef

The 2019 model

After many years of research and experimenting Alfred Verhoef makes wooden concert flutes in several types of wood with a number of distinguishing properties: rich in tone with a warm sound, very responsive in all registers, a rich colour-palet and a full sound, precise intonation with a totally new scale, special beds of the toneholes producing a strong projection, refined finished keywork with strong, stable and well adjustable keys, specially formed screws and axles and extra strong pointed arm keys.

All prices in euros.

Pricelist 2019, incl. 21% VAT

# concert flutes

fully handcrafted

Standard  $\frac{2}{3}$ offset G-mechanism. In line mechanism by order. The C-footjoint has two rollers. The B-foot has three rollers and a gizmo key. A special ergonomic position of plates and rollers of the footjoint, one-piece core-bar, special pivots and adjusting system make this flute very reliable and easy to play. Made in six sorts of wood, with their own timbre. Keywork in silver.

The new AV system is optional.
